

## ATTACHMENT H.

### - DC Voltages and Currents of RF components -

# GSTR-830D-SPR(Voltage and Current of Modules)

|               | MODULE                                 | Voltage | Current |
|---------------|--|---------|---------|
| LAN           | DONOR                                  | 7V      | 650mA   |
|               | SERVICE                                | 7V      | 650mA   |
| IF            | 18M                                    | 7V      | 340mA   |
|               | 7M                                     | 7V      | 330mA   |
|               | 5M                                     | 7V      | 330mA   |
| PAM           | FWD                                    | 27V     | 800mA   |
|               |  | 9V      | 700mA   |
|               | RVS                                    | 27V     | 800mA   |
|               |  | 9V      | 700mA   |
| NMS           | NMS BOARD                              | 5V      | 230mA   |
|               | NMS BOARD+MODEM BOARD( WITHOUT MODEM ) | 5V      | 530mA   |
|               | NMS BOARD+MODEM BOARD(WITH MODEM )     | 5V      | 850mA   |
| LED           |  | 5V      | 170mA   |
| WAVE DETECTOR |  | 7V      | 250mA   |
